## Vision

***“For the Software Industry  
Development in Mekong Delta  
and Vietnam”***

CUSC is the IT training center supplying professional and qualified human resources for the software labor market.

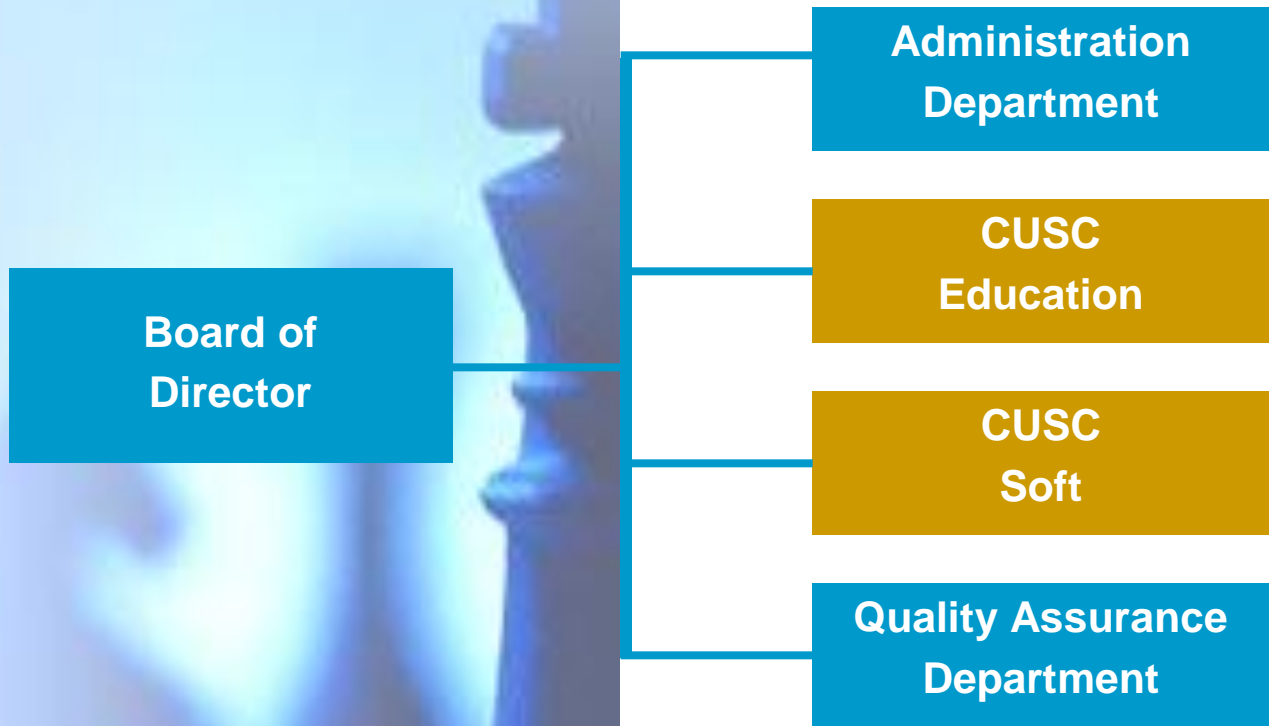

For the cooperation and development, besides developing software products based on the market demands, CUSC has supported the locals in building up IT teams, as well as proposed IT solutions in different fields.

“Continuously promoting and developing overseas cooperations” is the CUSC’s key activity, to contribute into building the brand name of Vietnam software industry on the international market.

All for national and international quality assurance: CUSC work processes are strictly abide by ISO 9001:2008 standard, and heading towards CMMI standard.

## Organization Chart

# Human Resources

CUSC's staff incessantly enhance professional qualification with members who graduated from domestic and foreign universities such as France, Belgium, Thailand... In addition, our software projects, IT training and research activities have been always supported efficiently by the specialists from College of Information and Communication Technology – CanTho University.

Our young and self-motivated staff always aspire to master the latest technologies and able to satisfy the strict customer requirements.
